## SUPERVISORS PASS ON SIX MORE PERMITS

REDWOOD CITY, MARCH 5.—The board of supervisors of San Mateo county on Monday morning granted permits to the following to conduct soft drink establishments: Peterson and Alford, Pescadero; C. J. Messner, Belmont; H. F. Owens, Menlo Park; A. G. Bray and L. Moore, Atherton; R. J. Mori, Rockaway Beach, and Harry Cavassa, Colma.

The application of Tom Tagni of Colma was denied, on recommendation of District Attorney Franklin Swart, who said that the place which Tagni maintained was of a nature which made it seem advisable to refuse a permit.

Swart told the board that he had been visited by an attorney and several men from San Diego who want to establish gum vending machines in this county. The district attorney said these devices were slot machines, and that they would not be allowed.

C. H. Holl, representing the Redwood City District Realty Board, asked for the supervisors' cooperation in effecting an early "cutting through" of the Las Pulgas road west of Redwood City. He said that the realty board represented all of the property owners along the route, except one, and that he thought there would be little trouble in securing a right of way.

The supervisors laid the matter over one week, but made plans to appoint an advisory committee to confer with them on the subject of the routing of the uncompleted portion of the road.

Recommendations of the Social Service Commission were adopted, and funds will be given for county aid cases.

Permission was granted Justice of the Peace Josephine Lamb to leave the state for 30 days.

County Horticultural Commissioner Tate reported that the aphid pest was appearing in increasing numbers, and that flowers and vegetables should be watched closely for signs of this parasite.

The supervisors received a letter from the Burlingame Chamber of Commerce thanking the board for its appropriation of \$750 to carry on the fight for the Bay Shore highway.

Bids were open for the construction of a road near Pescadero. There were four bidders and the successful one was W. W. Thompson, Redwood City contractor. His bid was \$48,850. Thompson has been on the peninsula for five years. He built the last seven and one-half mile unit of the same road, from Pescadero to Pigeon Point. He will set up a rock

## \$1500 DAMAGES AWARDED IN SUIT

REDWOOD CITY, MARCH 5.—George Lewis, plaintiff in a \$10,000 damage action against the Pickwick Stage Company has awarded \$1500 by a jury in the superior court.

The accident on which the suit was based happened on February 9, 1924, when Lewis, in a horse-drawn vehicle, was struck by a stage near Millbrae. Lewis incurred serious injuries.

Members of the jury were: Frank B. Woodhouse, Mabel Dunn, James D. Kerr, Mary C. Barrington, Julius Schenkel, Agnes Griffin, Henry Marcus, Josie H. Riordan, Sadie Kenny, Frank G. Cavalli, Margaret Maguire and Mary E. Dutton.

## THROUGH CAR PLAN IS O. K.

REDWOOD CITY, MARCH 5.—The Market Street Railway Company stands ready to give through express service between San Francisco and San Mateo. This was the announcement made by Charles N. Black, president of the company, Monday following the appeal of peninsula residents before the public utilities committee of the San Francisco Board of Supervisors Monday.

In a letter to the board of supervisors Black expresses himself as willing to comply with the suggestion that through cars be operated between Fifth and Market streets and San Mateo and solely for down the peninsula passengers. In the appeal of the Three Cities Chamber of Commerce for the service, it is also suggested that a ten cent fare be collected on the "express" trains within the limits of San Francisco city and county.

## BANDIT SUSPECTS ALLOWED TO GO

REDWOOD CITY, MARCH 5.—Joe Scrivani, 2, and Joseph Brandon, 27, booked at the county jail on suspicion that they participated in the robbery of a taxi driver near the Blue Bird Cafe in Colma several nights ago, were allowed their freedom when the victim failed to identify them.

Anthony Muzzi, held on the same charge, was also released, but Walter De Bishop, 23, was held.

crusher and work will start within 20 days. Daniel C. Imboden appeared before the board with the request that the supervisors appoint a committee to work in conjunction with other groups studying the plan to expand the Market Street Railway lines in the northern part of the county. Supervisors Rosa, M. Brown and Thomas Hickey were appointed.

## Timber-Eating Rats Disturb Man's Peace

### Simpson Demands Abolition of City Garbage Dump

"Rats. They killed the dogs and ate the cats. Split open nests of salted sparts." The rats Brownings writes about in his Pied Piper of Hamelin were not half as hungry as the rats which infest the garbage dumps, according to the tale told by Mr. Simpson, in charge of the warehouse of R. C. Storrie & Co., contractors, located near the garbage dump near the San Bruno city limits. Simpson told the city trustees, in session Monday night, that the rats were undermining his house. He further told the trustees the dump should be abolished or at least moved, because it was a breeder of "mice, rats, flies, stink and fire." Then he declared he should receive \$3 a day for fighting flies left burning by the garbage men.

Mr. Simpson was coasting along in good order until he said, with some vehemence, that the rock recently put on the road leading into the dump was not rock at all, but only mud. At that point Trustee Hugh McCaffrey took exception, explaining that 20 cubic yards of rock had been put on the road and defying Simpson to prove it hadn't. Some warm words were passed with threats of a court suit for abatement of nuisance, an invitation to start suit, until Mayor McNellis dismissed Simpson and appointed Trustee McCaffrey, Eschbach and Cunningham to investigate the garbage dumps with a view toward correction.

Simpson lives in a cottage near the dumps and he claims conditions there are unbearable. The city trustees have been working to have all garbage dumped in one spot to prevent nuisance, and have spent considerable money to have rats and other pests killed. Heavy rains of the past month have made the road into the dump impassable and have hindered the officers in caring for the farm as they are in the habit of doing.

## LET CONTRACT FOR WHIPPLE ROAD BRIDGE

REDWOOD CITY, MARCH 5.—H. F. Meyers, who bid \$3086, was awarded the work of constructing a concrete bridge across Cordillera Creek on Whipple road near the east portal of the Pulgas tunnel by the board of county supervisors Monday.

Plans and specifications were ordered drawn up for one mile of road from Tanitas bridge to Garaga gate in the Fourth Road District.

Results of the school bond elections from South San Francisco, where \$120,000 was voted for an elementary school and \$54,000 for the high school, was presented to the board, as was also the result of the Visitation Valley district election of \$10,000 for a school. Bids for all the work will be opened April 6. San Mateo county will appropriate \$10,000 as its share in the construction of a road from the Butano to the Big Basin, according to a letter which County Clerk Elizabeth M. Kneese was instructed to write to Assemblyman Frank Ekwad, asking that he push the matter at Sacramento.

## DAILY CITY WOMAN SUCCUMBS MONDAY

## PROTEST IS REGISTERED AGAINST BUILDING HOUSE OUTSIDE SETBACK LINE

### Miller Avenue Property Owners Ask to Have Building Permit Refused if Owner Builds Within 15 Feet of Property Line.

Reading of a protest signed by 28 residents of the district against the erection of a duplex residence building closer to the property line than 15 feet at Magnolia and Grand avenues at the meeting of the city trustees on Monday night was the signal for the reopening of a question that has bothered the officials for the past three weeks. A building permit has not yet been issued to Peter Mairani, agent for the owner of the property, who is in charge of construction, but the foundation is already laid. Following a protest filed two weeks ago a search of the deed was made and it was found there was no provision for a setback line in that region. City Attorney Davis explained that under existing laws there was no way to prevent the owner from building to the property line if he so desired. Mairani again explained that it would be impossible to build any further from the property line because of the size and shape of the building. It was decided to withhold issuance of the building permit until the next meeting, Tuesday, March 10, so that the quarrelling factions

can get together on some kind of a satisfactory agreement. City Attorney Davis was instructed to go further into legal phases of the question.

To Remodel Pool Hall Ernest Galli, who bought the building at 213 Grand avenue, formerly occupied by Mattie & Stokes as a bowling alley, was granted permission to remodel the place and to transfer his soft drink license to the new location.

The protest of Roveria Giobata against a charge for clearing weeds on his property in 1923 was ruled out as being too old. R. C. Stickle was granted a permit to build a garage for Fred Lautze on San Bruno road, between Grand and Miller, at a cost of \$17,500. He was also given permission to build a duplex house and three garages for himself on the corner of Orange and Baden avenues.

The petition of A. Cagnacci to build a new store building next to his present store at 42 Baden avenue was held up. The building inspector was instructed to issue the permit if Cagnacci agrees to build 10 or 12 feet from the 10, so that the quarrelling factions

## CITY MAY HOLD JULY 4TH CELEBRATION

South San Francisco may have a July 4th celebration. A committee was named by Mayor McNellis at the board of trustees meeting Monday night to determine whether the day shall be observed here. It is composed of Trustees Black, Cunningham, Eschbach, McCaffrey and Hen H. Truax, A. C. Buehler, Ira H. Potter and John W. Colebrier. A report is to be made next Tuesday night at an adjourned session of the board.

Several persons were called upon to express their opinions in regard to the feasibility of such a celebration.

## Harbor Resolution Passed

A resolution was introduced by Trustee Blank relative to the granting by the state to the city of the water front property. It was adopted and copies will be sent to our representatives in the state legislature.

## Building Inspection Charge Debated

Whether it will be fair to make a building inspection charge of \$2 per \$10,000 on stone buildings and allow corporations to build factory buildings and pay \$10 per each \$50,000 of construction cost, was the subject of considerable debate by the city board of trustees on Monday night. Trustee A. J. Eschbach raised the question in regard to the new building ordinance which will come up for passage in the immediate future. He said it would be better to give the factories a permit for nothing than to operate on a scale, which would work a hardship on the man building a new stone building. The consensus of the board was that it desired to encourage new industries, but it felt it could not provide the expert inspection necessary for factory buildings, and therefore only a nominal charge was included. A sliding scale will probably be adopted whereby a person building a structure to cost up to \$10,000, will pay \$2 per thousand and above that he will pay \$10 per \$50,000, or some other such arrangement.

## SIGN COMPANY TO PAY \$20 LICENSE

Foster & Kleiser will pay a flat license fee of \$20 per year and \$1 building inspection charge for each new board sign constructed, the city trustees decided in their meeting Monday night. Messrs. Morton and Higgins were again on hand to plead their case for a smaller license and showed figures that the average charge in this district for license was \$19.05. In view of the aid given by the company in keeping up the municipal signs on the borders of the town, it was decided to revise the ordinance to make it conform with those in other cities.

Dinning has served one term of three years on the board and has announced a month ago he would not be a candidate at the forthcoming election. ## 9 Year Old Boy Steals Auto; Is Captured Here

The mad dash into crime of Charles Berry, aged 9, of San Francisco, was halted in this city Tuesday afternoon by Chief of Police Louis Belloni when he caught the youth coming into the city in a car he had stolen in San Francisco.

Berry, who lives with his parents at 608 23rd avenue, took the Ford car of George G. G. of 127 Edinburg street, from Thirteenth and Mission and started for the wide open spaces. A phone call to this city put local officers on the watch and the boy was stopped by Officer Belloni, who found him chugging along with a badly smashed machine, the result of a collision with a fence, and the engine practically burned out.

He was held here until late afternoon, when juvenile court officers came to take him to San Francisco.

## OPPOSITION TO OLEOMARGARINE BILL IS RAISED

### Chamber of Commerce Sends Resolutions to Legislators

Resolutions opposing Assembly Bills 408, 410 and 878 containing provisions relative to the manufacture and sale of oleomargarine in this state have been adopted by the board of directors of the chamber of commerce and forwarded to Senator M. B. Johnson and Assemblyman Frank L. Ekwad in Sacramento. The chamber's findings in the matter are: "If these bills become law it will seriously hamper the manufacture of this product, and consequently affect one of our leading industries in South San Francisco. The Western Meat Company would suffer greatly. Officials of the bills become law, Virden would suffer indirectly as all of the cattle industry will suffer if the manufacture of oleomargarine is made so difficult by law that it will have to be discontinued. It is pointed out the manufacture of the product is strictly regulated by Federal law. Similar bills in Oregon and Washington an in Utah were voted against by the people.

## BEAUTIFICATION PLAN ENDORSED BY DIRECTORS

Endorsement was given by the board of directors of the chamber of commerce on Thursday evening to the plan submitted by MacRorie & McLaren, landscape gardeners of San Mateo, for the beautification of the civic center.

Chairman Holston of the civic center beautification committee introduced Messrs. LaVallee and Buckley, who outlined the details of the plans they presented for the above named firm. Provision is made for the construction in the future of an auditorium and a fire house on the civic center. The other plan which will be submitted to the city trustees by the chamber of commerce is that of Walter Huff of the West Coast Nurseries Company.

Board Authorizes Petition Authorization was given by the board of directors to the drafting of a petition to the railroad commission asking permission to extend Orange avenue at grade across the tracks to Los Cerritos tract, as recommended by the committee.

Nine cars, three of them auto stages, fell victim to Chief Lewis and his men, and, in addition to the lessons, several arrests were made.

Three busses, stepping along a little too fast, were ordered back to the other end of the town limits.

"Now see if you can come through here at a respectable speed," they were told by Lewis, and they did, with the chief's motorcycle pacing them the entire distance.

WELFARE CLUB  
GIVES SPANISH  
NIGHT PROGRAM

The Welfare Club was host at a very delightful entertainment on Tuesday evening. In keeping with its policy of presenting novel and interesting programs for its members, it presented a "Spanish Night" which featured the music, song, and dance of Spain.

George Mendoza worked out the details of the evening and we are indebted to him for one of the best evenings we have spent to date. Senior Jose Lopez acted as program announcer.

An orchestra composed of Professor Jose Amable at the piano, Augustin Lerma, violin and J. C. Ramirez, cornet entertained us with a number of Spanish pieces. Senorita Alida Luther, soprano, rendered several Spanish love songs in costume. She also gave us several Spanish dances in native costume. Senior Ramirez gave us two cornet solos and Senior Lerma rendered some beautiful violin solos. The guests of the evening were loudly applauded and highly appreciated by the large turnout of members. Daddy Blake furnished refreshment for the entertainers. A short business meeting preceded the program.

L. L. Foley has been appointed to succeed P. J. Shaw as manager of the traffic department. Shaw leaves us to become manager of the South San Francisco Land Company. Our good wishes to both men in their new positions.

R. D. Brown of Chicago was on the plant this week on his annual visit in the interest of the insurance companies.

Cesar Lencioni has returned to us after having spent the last year at Fresno. Caesar says he is not homesick for South San Francisco and his friends here.

Louis Waser has been appointed as foreman of the Lard Room and Oil Refinery. Our best wishes for success go to Louis in his new position.

STOCKHOLDER  
SUES P. R. T.  
DIRECTORS

REDWOOD CITY, MARCH 5.—Charging that W. H. Pearson, president and general manager of the Peninsula Rapid Transit Company, and H. W. Regan, vice president and treasurer, conducted the business of the company so as to "disable the company from paying dividends to stockholders, thereby depressing the value of its stock in order to enable the directors to purchase stock from dissatisfied stockholders," an action was filed with the county clerk Monday by John Rehe.

Rehe is owner of 1250 shares of capital stock of the company. He bases his suit on his own behalf, but states that other stockholders, exclusive of the defendants, may join in the action and help defray costs.

The defendants are the P. R. T. Co. and the directors: W. H. Pearson, H. W. Regan, E. W. McLellan, F. B. Pearson, F. J. Regan, and E. Lang.

Since the company was incorporated in 1914, the corporation has declared and paid but one dividend, the plaintiff says.

Here are the allegations set forth in Rehe's bill:

W. H. Pearson owns 7427 shares of stock. H. W. Regan owns 6722 shares. The two own and control the majority of issued and outstanding stock, and have dictated the actions of the other directors of the company.

By reason of this ownership, the two caused the election of Pearson as president and general manager at a salary of \$750 per month, while Regan, through the same power, was named vice president and treasurer at \$650 a month.

F. B. Pearson, son of the president, was appointed superintendent of transportation at a salary of \$250 per month.

H. W. Regan's brother, F. J. Regan, was appointed agent for the company at San Jose. He lives in Burlingame and spends "a substantial portion of his time there." His services are not required by the company, it is charged.

E. W. McLellan is receiving \$75 a month as secretary. This is an excessive amount, the plaintiff says, as his duties take up but one evening each week.

During the past two years, the directors have held a meeting each

RUM AUTO CAPTURED  
IN PENINSULA CHASE

REDWOOD CITY, MARCH 5.—Archie and David Taylor were arrested by prohibition agents after a speedy chase down the peninsula Tuesday. They were charged with violating the Volstead act. Forty gallons of whiskey concealed in gasoline cans were seized.

Prohibition agents sighted the booze car near San Mateo. Eight five-gallon cans of gasoline were in plain view. Confident that no cross-country trip would warrant the transportation of so much gasoline the agents gave chase. Scores of week end motorists were driven to the side of the road and into by-lanes as the speed of the cars increased. With drawn guns the agents overtook the fleeing car after a two-mile chase.

Each director receives whether he attends or not, Rehe declares.

In 1923, Pearson charged \$2600 to travel expenses, and in 1924, up to \$31, charged \$1000 for the same thing, it is alleged.

Furthermore, Rehe asserts that the bus company aided in financing the construction of a terminal depot in San Jose, and that Pearson and Regan took a lease on the building in their own names, at \$1495 a month rental. They subleased that \$2400 a month, and are now realizing a monthly profit of approximately \$1000. The profits were entered on the books of the company as an account payable to Pearson and Regan, it is charged.

Rehe declares that the Peninsula Rapid Transit Company is charged a monthly rent of \$500 for its San Jose headquarters, but that the Pacific Auto Stages company pays but \$150 per month.

The plaintiff asks the court to order the defendants to make an accounting of their transactions, and to fix "fair" salaries of the officials. It is also asked that the lease on the lease on the San Jose building be assigned to the company.

Robert L. McWilliams of San Francisco is attorney for Rehe.

GOFF CATCHES  
BOOTLEGGERS  
NEAR SAN MATEO

REDWOOD CITY, MARCH 5.—This is the tale of a bootlegger's hard luck. Do bootleggers have hard luck? Yes, Sophia, they do, sometimes.

To begin with, Bert Fentony ran afoul of the Redwood City police force in 1922 for violating the prohibition laws. He was fined \$600. He vowed he would never break the law again—or at least, get caught at it.

Here He Comes

Came January 9, 1925. Came Fentony, driving a truck through Redwood City at 4 o'clock in the morning, when everybody was asleep except Police Officer W. H. ("Bud") Thorpe. The truck was loaded with moonshine liquor—the kind that makes "white mule" green with envy. Came Officer Thorpe, who commanded Fentony to halt.

Pays Fine

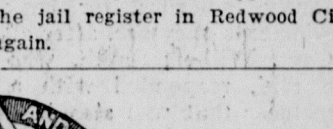

To make a long story—and a sad one—short, Fentony was fined \$1050 by City Recorder Albert Mansfield. The \$50 was for carrying a concealed weapon, because Fentony was armed with a vicious Luger automatic pistol when he was caught. Fentony's truck was confiscated and was sold but recently by Sheriff T. C. McGovern. The ex-owner swore he would never break the law again—or at least—get caught at it.

Friday, a fellow bootlegger tempted Fentony, and he fell. He agreed to deliver a load of liquor from an unidentified spot "somewhere near San Mateo, in the hills," to San Francisco. The transaction was made and Fentony loaded a Hudson touring car with 130 gallons of whiskey. Then he started for San Francisco.

In the wilderness beyond San Mateo, Fentony met a Cadillac car. Unfortunately, it contained Capt. Charley Goff, head of the government's prohibition forces for Northern California and Nevada. With Goff were several federal agents. They were out sleuthing for hooch. In some manner known only to "the Feds," Fentony's car, its springs sagging with the weight of liquor, was spotted. There was a brief chase, and Fentony's name appeared on the jail register in Redwood City again.

More local calls are handled each year over the Dallas telephone system than by the telephone systems of either Belgium or Switzerland.

Of nearly 50,000,000 inhabitants of Netherlands, India there are only 200,000 Europeans.

## RAISING FUNDS WITHOUT FURORE

The Community Chest Quota Was Easily Obtained Without the "Drive" Tactics Resorted To in Some Cities

The coffers of the Community Chest have been filled for another year. The welfare of the various charitable organizations of the city has been assured through the generosity of the people of this city. Very little fuss and to-do was necessary to raise the \$5,000 set as the 1925 quota. The Community Chest knew how much to expect from the city and the people knew how much they could give. Both sets of calculations were correct and the needy will be assured attention and care for another twelve months.

That is a real indication that South San Franciscans know how to attend to their business.

This paper has been asked to thank Community Chest donors on behalf of that organization. It wishes to do more. It wishes to compliment those who contributed and those who conducted the campaign on the fine manner in which the whole drive was put over.

## VIOLATING NAVAL ETIQUETTE

When an Officer Has Liquor in His Cabin, His Objection to Search Without His Premises Seems Humorous

They found liquor in the officers' cabins of the United States naval transport Beaufort in the harbor of Norfolk, Va., the other day, and the attorneys for the officers on trial on the charge of having it there raised the objection that traditional naval custom had been violated by conducting the search while the officers were not present. Such action was violently contrary to the established etiquette of the navy, which prescribes that officers must be present when their cabins are searched. Consequently, this invasion of their quarters while they were ashore ought never to have taken place.

Very likely the counsel for the accused officers made this protest with a straight face; attorneys can do such things. But even to them the proposition must have seemed deliciously ludicrous, for back of their legal attainments they are, after all, human.

Capt. Wilbert Smith, who had charge of the raid, responded with a bluntness and directness that was also in keeping with the best naval tradition; he didn't insist on observance of the custom, he said, because he "was more interested in a quick search of the vessel." He talks like a sailor, an officer, and a man.

The custom by which no officer's quarters are searched without his presence is obviously based on the pre-supposition of honor on the part of the officers of the navy; it is in keeping with the fine tradition of high and strict probity and good faith instilled in the training of these officers, with the understanding that above all things they are gentlemen who keep their word. An officer who has liquor in his cabin on board his ship has no business to appeal to etiquette based on that supposition. For him to do so is ridiculous and mirth-provoking in one aspect; in another it is not so funny.

## PHOTO SENT ACROSS U. S. OVER PHONE

A picture of President and Mrs. Coolidge, taken Sunday morning at 10:45 as they were leaving the White House for church, was transmitted over long-distance telephone wire to San Francisco in seven and one-half minutes and appeared on the streets of the city at 7 o'clock in a San Francisco newspaper. The picture was not in outline form, but was a full half-tone photograph.

The picture to be sent must be taken from a transparent film. It is inserted in the transmitter simply by rolling it up in a cylindrical form. During operation a very small and intense beam of light shines through the film onto a photoelectric cell within. The film is rotated at a uniform speed and by means of a screw mechanism is slowly advanced. The motion of the light relative to the cylinder is similar to the action of the phonographic needle on the record. Every minute portion of the picture in turn affects the intensity of the light reaching the photo-

electric cell. This variation in the light striking the sensitive surface of the cell gives rise to a current, which, through the agency of a vacuum tube amplifier and modulator, controls the current flowing over the telephone line.

At the receiving end an unexposed film is rotated under a beam of light in a manner similar to the transmitting end, and when the end is reached, all that remains to be done is the developing and printing.

Because Francis Blanchard of San Francisco "talked over" the likelihood of being able to slip hacksaws into the San Mateo county jail at Redwood City in a can of milk, he will have to go to prison for from one to ten years.

The State District Court of Ap-

peal has affirmed Blanchard's conviction in the San Mateo Superior Court on a charge that he conspired to slip hacksaws into the jail to James Clinton, Maurice Allen, and George Dawson, who have been sentenced to San Quentin prison on charges of second degree burglary.

## WHO'S WHO in the HIGH SCHOOL

**EDITORIAL NOTE**—This is the third of a series of sixteen articles which will appear, tending to promote a better understanding between the community and the persons who make up the high school teaching staff.

Clara P. Simon

In looking over the teachers of the high school, another has been found from Missouri. Miss Clara P. Simon is literally from Missouri. She has been away from Missouri for so many years that she remembers nothing at all about it. Miss Simon's grammar school education was taken "almost everywhere," because her parents were great travelers. They must have been very particular to point out so many beautiful things in the world to a child, who in turn should not only be interested, but be gifted with the ability to teach students to reproduce them in picture. Today Miss Simon calls Salt Lake City her home, and it is here that she received her high school education.

In the University of California, Berkeley, she was an honor student. At one time she was vice-president of the English Club; and again the vice-president of the Delta Epsilon—an honor society of art students. The most notable office held was a two-year term as art editor of the Occident, a monthly publication containing the best productions of poetry, prose and art. Many issues of the "Blue and Gold" also contain some of her art work. She received the A. B. degree from Berkeley, after majoring in education, language and art.

Another of her achievements was to paint and publish the portraits of President Emeritus Benjamin Ide Wheeler, ex-President Barrows and President Campbell of the university. These productions excited much favorable comment among art critics. Miss Simon is particularly interested in portraiture, and she devotes much time after regular school hours in painting portraits of children. Many of these were on display last year at the spring exhibition.

**Every Child a Potential Artist**  
Miss Simon is one of the busiest teachers in the high school. Every week 242 different pupils attend her classes. Many of these are especially talented. The instruction is all personal and individual. To her every child is a separate entity—each having different talents, experience, capabilities and aims. Every child, therefore, is in a separate class, and it can be easily seen just what mental labor is required on the teacher's part, and what results will be accomplished by this method of individuality. In addition to free hand drawing, the course in the local high school art department includes modeling, casting, painting, costume designing, lamp shade making, pen and ink poster work, designing, block printing, pastel painting, lettering, charcoaling and craft work.

The appreciation of art is an important factor in the attainment of human happiness, and should be universally developed in children. It is strange that so few parents have thought of visiting the art department. Miss Simon said that only one person had been a visitor last semester. Her department is truly a studio of art exhibits and well worth a visit. She is looking forward with pleasure to the recreation of the new building which will house her department with larger floor space and more complete equipment.

## PROPERTY OWNERS PROTEST BUILDING PERMIT FOR HOUSE AT MILLER AND MAGNOLIA

A protest was filed with the city board of trustees on Monday night by 28 property owners of the district around Miller avenue and Magnolia against the issuance of a building permit to Pete Mairani for the construction of a duplex house that will be closer to the property line than 15 feet. The signers claim it will spoil the beauty and view of Miller avenue and decrease the property values. The permit was not granted and Mayor McNellis urged the parties in the disagreement to get together and try to straighten the matter out themselves.

Ernest Galli was given permission to remodel the premises at 213 Grand avenue which he recently purchased. Galli will install his pool hall, which was across the street in the Giffra Building.

A committee consisting of Trustees Blank, Cunningham, Eschelbach, McCaffrey, and B. H. Truax, A. C. Buehler, Ira M. Potter and John W. Coleberd was named to consider the advisability of holding a Fourth of July celebration in this city. They will report at the meeting to be held next Tuesday evening.

The petition of the Fraternal Order of Eagles for permission to hold a circus in conjunction with Foley & Burke Amusement Company, at Railroad and Division streets on May 12 to 16, was laid over until next Tuesday. In the meantime merchants will be interviewed.

Mr. Simpson, representing the R. C. Storrie & Company, contractors, who have a warehouse near the City Garage dump on San Bruno road, entered a protest against conditions there, and asked that the dump be abolished. A committee composed of Trustees McCaffrey, Eschelbach and Cunningham was named to investigate.

Lunedì sera, alla seduta del

Il permesso non e' stato concesso, ed il sindaco McNellis invito' le due fazioni contestanti ad appropiarsi e cercar di appianare la questione tra loro stessi.

A Ernesto Galli fu concesso il permesso di romodellare per suo uso lo stabile situato al No. 213 Grand avenue, che recentemente acquisto'. Il Sig. Galli installera' la sala da bigliardo che teneva dirimpetto nel caseggiato di Frank Giffra.

## NERVES AND GLANDS CLOSELY RELATED SAYS PHYSICIAN

Scientific Discoveries Reveal Importance of Normal Glandular Activity to Vigorous Health and Strength. Thousands of Men and Women Now Taking Glandular (Glandogen) Treatment.

At a recent medical convention in Chicago an eminent physician stated that because of the intimate connection of the nervous system with the glands, many sufferers from nervous disorders were receiving remarkable benefits from glandular treatment. He further stated that this glandular treatment could be taken by mouth like any other medicine, and that an operation is not necessary.

**EMINENT SCIENTISTS AND PHYSICIANS REVEAL AMAZING FACTS ABOUT GLANDS.**  
Dr. Serge Voronoff, an international authority on Organotherapy, has said: "The brain, the nerves, the muscles, as well as the liver, the kidneys and all other organs would be incapable of playing any useful part without the aid of the glands. The functioning of our organs is no more than the activity of our glands, and when the bodily functioning is disturbed, the cause in most cases should be sought, not in the condition of the organ itself, but in the condition of the gland which controls it."

Dr. Arnold Lorand says in his book, "Old Age Deferred," in speaking of the glands: "We must insist upon the reinforcements of their functions, if changed by age

or disease, by means of extracts obtained from the similar organs of healthy young animals."

## GLANDULAR TREATMENT (GLANDOGEN) CAN NOW BE TAKEN IN CONVENIENT TABLET FORM.

Thousands of men and women are now turning to glandular treatment to help regain lost strength, vigor, vitality and health. Since Science has prepared a gland treatment in simple compact tablet form—Glandogen—it is a simple matter to take glandular treatment. Glandogen is scientifically prepared in two different forms, one for men and one for women, from the vital glands of healthy young animals, combined with other efficacious ingredients. Accept no substitutes. Insist on genuine Glandogen, the original gland tonic. Peninsula Drug Co., South San Francisco, Daly City, and Columbia will supply you.

## Many Here Poison Themselves Daily

Carelessness of Modern Living Results in Digestive Disorders, Sick Headache, Gas, Biliousness—Dr. H. S. Thacher's Remarkable Prescription Relieves Many

A neglected liver can often cause more trouble than a bottle of poison. When the liver is clogged and inactive, it fails to secrete the juices necessary to digestion and elimination. Worst of all, it fails to purify the blood properly. When this happens, annoying symptoms tell you that a state of self-poisoning exists in your body.

## Symptoms Lead to Sick Bed

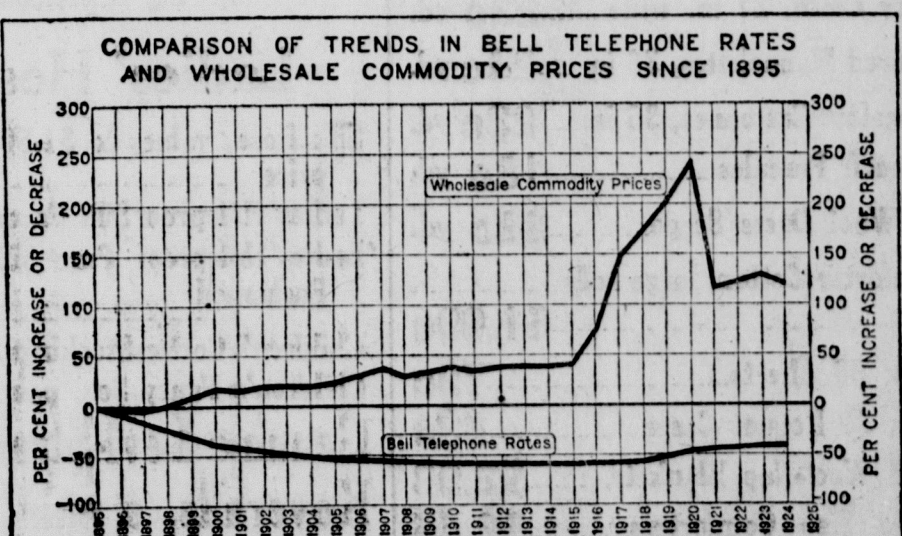

It explains why a sluggish liver is attended by such symptoms as constipation, biliousness, sick headaches, sourness and gas on a weak stomach, loss of appetite, pains in the back and sides, and a nervous, run-down condition—symptoms that lead to the dangerous and expensive sickbed unless corrected in time.

Dr. H. S. Thacher, noted medical

practitioner, perfected a wholesome vegetable prescription to keep the liver healthy. It is giving quick relief and renewed strength, energy and vigor to numbers here. This prescription, known pharmaceutically as Dr. Thacher's Liver and Blood Syrup, doesn't cost much, pleasant to take and contains only ingredients that are known to physicians for their corrective and health-building properties.

## Notice Quick Difference

Try this great prescription yourself. Notice the quick difference in the way you look, eat, sleep and feel. You will be completely satisfied; otherwise, there will be no cost. Mr. Thacher's Liver and Blood Syrup is sold and recommended by Peninsula Drug Co. and all leading druggists.

## The Cost of Service

ON the loyalty and skill of the humanelement depends the character of telephone service. The providers of this service must not only meet the market prices for materials. They must also maintain at any cost a high standard of workmanship.

Because of advancing prices, the telephone dollar goes only half as far as it did ten years ago. More than three-fifths of this dollar is necessarily expended for wages. Less would neither

attract nor hold the high-grade workers essential to maintain America's standards.

That Bell telephone rates have advanced much less than other prices is largely due to economies in methods and apparatus that have been developed and introduced. It is also because the proportion of operating plant built at pre-war prices is still large, though this is steadily decreasing because of new construction made necessary by the nation's telephone needs.

The Pacific Telephone and Telegraph Company
